

# CONTOPP®

CLEANING AGENT 10

Article number: 40.210

## Technical Leaflet

### Function

- Highly-concentrated cleaning agent for removing lime and cement residue, screed residue, scum and rust.
- On account of its automatic chemical composition, reduces manual amount of work involved.
- Helps to protect the material and leaves behind anti-corrosion protection.

### Application area

- For cleaning all kinds of components and technical equipment that have become soiled by lime and cement.

### Data

|                         |   |
|-------------------------|---|
| Colour:                 | colourless  |
| Form:                   | liquid  |
| Density (20°C):         | 1.45 ± 0.03 g/ml                                      |
| Processing temperature: | as of + 5°C   |
| Shelf life:             | c. 12 months – protect from frost and direct sunlight |
| Supply form:            | PVC can: 24 kg net                                    |
|                         | poly drum: 240 kg net                                 |
|                         | container: 1.200 kg net                               |

### Underground preparation

- In warm weather conditions and with direct sunlight, the surface to be cleaned must first be cooled down with water. This particularly applies to painted surfaces.

### Processing

- Undiluted depending on the degree of soiling or diluted with water up to a ratio of 1:4.
- CONTOPP® Cleaning Agent 10 is usually applied by brush or by spraying.
- In the case of heavy soiling, several applications may be necessary.
- In summer, do not clean in direct sunlight.

### Follow-up treatment

- After cleaning the cleaned surface must be carefully rinsed off with water.

## CHARACTERISTICS

## TECHNICAL DATA

## PROCESSING INFORMATION

**Safety**

- Always observe general work hygiene when using our products.
- CONTOPP® Cleaning Agent 10 is free from hydrochloric acid and bio-degradable.
- CONTOPP® Cleaning Agent 10 can cause burning.
